## National Freedom Party KwaZulu Natal – Media Statement

Date: 08/09/2016

Issued by: Hon Vikizitha R Mlotshwa MPL  
NFP KZN Provincial Chairperson

**Subject: NFP's concern about the failure of inaugurating of some Municipalities within the Province of KwaZulu – Natal, eJozini Local Municipality and Nquthu Local Municipality due to political instability and intolerance.**

It's being a month for so after the Local Government Elections, but it is painful to see the above mentioned municipalities failing appoint and elects its leadership which is be a big blow to its communities, service delivery has been compromised due to power struggle and political egos. Our elected councilors had forgotten the mandate given by votes and submit to power greediness and the will of voters has been neglected. IEC has become a toothless dog or leaping lion noting that the time of inaugurating and setting of executive structures has already been pass and expired. It has become evidenced that some political parties entered into coalition's base on anger, power and corrupt motive not base on the will of their members, communities, voters and supporter and political ideology or principles. Our MEC - COTGA has become a political spectator and Mrs Untouchable while the poorest of the poor are suffering due to lack of administration and service delivery. Where is she and is she doing to advance the principles of freedom chatter of putting people's first.

It came note, that the suspected beneficiaries of apartheid (IFP) are massaging their supreme masters (DA) and sharing one political bed in interest of power. This Wolfe and Jackal political relationship of IFP & DA is making our votes to be lamb of sacrifice. It harmers services delivery.

When the NFP enters into an Agreement with ANC –The IFP said **“izintethe zibelethe”**. But now he decided to betray the voter's wangena embhedeni neqembu elinensila nenhlese yobandlulo ngabe iyona ndlela abonga ngayo indlela ayephathwe ngayo kancono ngezikhathi zobandlululo?

We call upon all political parties involves to shade and put aside their political differences and priorities service delivery and needs/interest of our people who voted for them.

We urge the MEC of COGTA Mrs Nomusa Dube Ncube to urgently intervene in ensuring that the needs of the people in these areas addressed.

# NATIONAL FREEDOM PARTY

Tel: (033) 355 7421  
Fax: (033) 3420960

Once again we wish to remind all elected councilors despite of the organization they belong to that their responsibility is to continue from the good work done by the NFP and to put people of these municipalities first and forget their political differences if they want to deliver to our people.

Ends
